to assess antidumping duties on all appropriate entries. For Angang, antidumping duties shall be assessed at rates equal to the cash deposit of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption, in accordance with 19 CFR 351.212(c)(2). The Department will issue appropriate assessment instructions directly to CBP 15 days after publication of this notice.

**Preliminary Recission of Review**

On January 23, February 6, and March 6, 2009, the Department placed CBP data and entry documentation on the record of the instant review, which indicated that Baosteel may have entered subject merchandise during the POR. On March 25, 2009, the Department requested additional information from Baosteel regarding the classification of the shipments. On April 1, 2009, Baosteel provided information demonstrating that the entries in question had been misclassified, and were actually shipments of merchandise outside the scope of this antidumping duty order. Upon review of Baosteel’s response, the Department finds that there is no record evidence that indicates Baosteel made entries of subject merchandise during the POR.

Therefore, in accordance with 19 CFR 351.213(d)(3) and consistent with our practice, we are preliminarily rescinding this review of the antidumping duty order on certain hot-rolled carbon steel flat products from the PRC for the period of November 1, 2007, to October 31, 2008. If the rescission is confirmed in our final results, the cash deposit rate for Baosteel will continue to be the rate established in the most recently completed segment of this proceeding.

Interested parties may submit comments for consideration in the Department’s final results not later than 30 days after publication of this notice. See 19 CFR 351.309(c). Responses to those comments may be submitted not later than five days following submission of the comments. See 19 CFR 351.309(d). All written comments must be submitted in accordance with 19 CFR 351.303, and must be served on interested parties on the Department’s service list in accordance with 19 CFR 351.303(f)(3). The Department will issue the final results of this administrative review, which will include the results of its analysis of issues raised in any such comments, within 120 days of publication of the preliminary results, and will publish these results in the Federal Register.

**Notification to Importers**

This notice serves as a final reminder to importers for whom this review is being rescinded, as of the publication date of this notice, of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary’s presumption that reimbursement of the antidumping duties occurred and the subsequent assessment of double antidumping duties.

**Notification Regarding APOs**

This notice also serves as a reminder to parties subject to administrative protective orders (“APO”) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is thereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

This notice is in accordance with sections 751 and 777(f)(1) of the Tariff Act of 1930, as amended, and 19 CFR 351.213(d)(4).

Dated: June June 19, 2009.

John M. Anderson,
Acting Deputy Assistant Secretary for Antidumping and Countervailing Duties Operations.

**BILLING CODE 3510-05-S**

**DEPARTMENT OF COMMERCE**

**National Oceanic and Atmospheric Administration**

**RIN 0648–XP71**

**Notification of Availability of Draft Stock Assessment Reports**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; request for comments.

**SUMMARY:** NMFS reviewed the Alaska, Atlantic, and Pacific regional marine mammal stock assessment reports (SARs) in accordance with the Marine Mammal Protection Act. SARs for marine mammals in the Alaska, Atlantic, and Pacific regions were revised according to new information. NMFS solicits public comments on draft 2009 SARs.

**DATES:** Comments must be received by September 24, 2009.

**ADDRESSES:** The 2009 draft stock assessment reports and summaries of them are available in electronic form via the Internet at http://www.nmfs.noaa.gov/pr/sars/.

Copies of the Alaska Regional SARs may be requested from Robyn Angliss, Alaska Fisheries Science Center, NMFS, 7600 Sand Point Way, NE BIn 15700, Seattle, WA 98115–0070.

Copies of the Atlantic and Gulf of Mexico Regional SARs may be requested from Gordon Waring, Northeast Fisheries Science Center, 166 Water St., Woods Hole, MA 02543.

Copies of the Pacific Regional SARs may be requested from Jim Carretta, Southwest Fisheries Science Center, 8604 La Jolla Shores Drive, La Jolla, CA 92037–1508.

Send comments or requests for copies of reports to: Chief, Marine Mammal and Sea Turtle Conservation Division, Office of Protected Resources, National Marine Fisheries Service, 1315 East-West Highway, Silver Spring, MD 20910–3226, Attn: Stock Assessments. Comments may also be sent via facsimile (fax) to 301–427–2522 or via email to mmsar.2009@noaa.gov.

**FOR FURTHER INFORMATION CONTACT:** Tom Eagle, Office of Protected Resources, 301–713–2322, ext. 105, e-mail Tom.Eagle@noaa.gov; Robyn Angliss 206–526–4032, e-mail Robyn.Angliss@noaa.gov, regarding Alaska regional stock assessments; Gordon Waring, 508–495–2311, e-mail Gordon.Waring@noaa.gov, regarding Atlantic regional stock assessments; or Jim Carretta, 858–546–7171, e-mail Jim.Carretta@noaa.gov, regarding Pacific regional stock assessments.

**SUPPLEMENTARY INFORMATION:**

**Background**

Section 117 of the Marine Mammal Protection Act (MMPA) (16 U.S.C. 1361 et seq.) requires NMFS and the U.S. Fish and Wildlife Service (FWS) to prepare stock assessments for each stock of marine mammals occurring in waters under the jurisdiction of the United States. These reports must contain information regarding the distribution and abundance of the stock, population growth rates and trends, estimates of annual human-caused mortality and serious injury from all sources, descriptions of the fisheries with which the stock interacts, and the status of the
stock. Initial reports were completed in 1995.

The MMPA requires NMFS and FWS to review the SARs at least annually for strategic stocks and stocks for which significant new information is available, and at least once every 3 years for non-strategic stocks. NMFS and the FWS are required to revise a SAR if the status of the stock has changed or can be more accurately determined. NMFS, in conjunction with the Alaska, Atlantic, and Pacific Scientific Review Groups (SRGs), reviewed the status of marine mammal stocks as required and revised reports in the Alaska, Atlantic, and Pacific regions to incorporate new information. NMFS solicits public comments on the draft 2009 SARs.

Alaska Reports

Twenty-three reports (14 strategic stocks and 9 non-strategic stocks) were revised, and 13 reports were not revised. Most revisions included updates of abundance and/or mortality estimates; there were no changes in the status of the affected stocks.

The most recent 5-year period of incidental mortality and serious injury estimates for Federal fisheries in Alaska is 2002–2006. Although observer data from these fisheries are available for more recent years, analysis of observer data from 2007 and 2008 has not been completed due to changes in staffing and in the structure of the database. The 2007 and 2008 fishery mortality data are currently being analyzed, and these results will be incorporated in the 2010 SARs.

Results from a collaborative international study on humpback whales have been incorporated into the reports for the Central and Western North Pacific stocks. These results produced new abundance estimates for these stocks and allowed PBR for both stocks to be changed from undetermined to calculated values. Both stocks remain strategic stocks because they are populations of an endangered species.

Atlantic Reports

Fifty-two new or updated reports (16 strategic and 36 non-strategic) are included among 2009 Atlantic regional SARs. Nineteen reports were not revised. New reports include four stock-specific reports for beaked whales and nine new reports of bay, sound, and estuary stocks of bottlenose dolphins along the Atlantic coast. The 39 revised reports included updates of abundance or mortality estimates, strandings, and status of these stocks was unchanged. However, Potential Biological Removal (PBR) estimates for three stocks of dolphins (bottlenose, Atlantic spotted, and rough-toothed) in the Gulf of Mexico were changed to “undetermined” because the abundance data supporting these estimates are outdated (more than 8 years old).

The beaked whale reports were previously published as a combined report (Mesoplodon sp.) because most beaked whale species cannot be distinguished from one another during abundance surveys. Each of the new reports and the report for Cuvier’s beaked whale contain the same numbers for abundance (3,513), minimum population estimate (2,154), and PBR (17) and were included in the 2008 SAR for Mesoplodon sp. Similarly, a single observed serious injury of an unidentified beaked whale incidental to beaked whale research was included in all reports; three of the beaked whale species (Blainville’s, Sowerby’s, and True’s) have additional human-caused mortality based upon stranded animals that were identified to species.

Bottlenose dolphins within bays, sounds, and estuaries along the Atlantic coast were not included in previous stock assessment reports. Although these stock identities have been proposed, there is sufficient mixing of individuals from coastal and bay stocks that abundance and mortality/serious injury estimates for all nine of the new bottlenose dolphin stocks are unknown.

Pacific Reports

In the Pacific region, 13 reports were updated in 2009, including 8 strategic stocks and 5 non-strategic stocks; 50 SARs were not revised. Most changes were updates of abundance or mortality estimates and did not result in a change of status of any stock.

A new SAR for humpback whales in American Samoa waters, which is strategic because all humpback whales are listed under the Endangered Species Act, is also included. The assessment for Northern Oregon/Washington Coast stock of harbor porpoise includes a name change (“Oregon” is appended to “Northern Oregon”) to reflect recent stock boundary changes. Changes in abundance estimates for the two stocks of harbor porpoise that occur in Oregon waters are the result of these boundary changes and do not reflect biological changes in the populations.

Helen M. Golde,
Deputy Director, Office of Protected Resources, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE
Patent and Trademark Office

Invention Promoters/Promotion Firms Complaints

ACTION: Proposed collection; comment request.

SUMMARY: The United States Patent and Trademark Office (USPTO), as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on the continuing information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104–13 (44 U.S.C. 3506(c)(2)(A)).

DATES: Written comments must be submitted on or before August 25, 2009.

ADDRESSES: You may submit comments by any of the following methods:

• E-mail: Susan.Fawcett@uspto.gov. Include “0651–0044 comment” in the subject line of the message.

• Fax: 571–273–0112, marked to the attention of Susan K. Fawcett.

• Mail: Susan K. Fawcett, Records Officer, Office of the Chief Information Officer, Administrative Management Group, United States Patent and Trademark Office, P.O. Box 1450, Alexandria, VA 22313–1450.

FOR FURTHER INFORMATION CONTACT:
Requests for additional information should be directed to Cathie Kirik, Mail Stop 24, Commissioner for Patents, United States Patent and Trademark Office, P.O. Box 1450, Alexandria, VA 22313–1450; by telephone at 571–272–8800; or by e-mail at Cathie.Kirik@uspto.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

Under the Inventors’ Rights Act of 1999, as found in 35 U.S.C. 297 and implemented by 37 CFR Part 4, the United States Patent and Trademark Office (USPTO) is required to provide a forum for the publication of complaints concerning invention promoters and responses from the invention promoters to these complaints. An individual may submit a complaint concerning an invention promoter to the USPTO, which will forward the complaint to the invention promoter for response. The complaints and responses will be published and made available to the public on the USPTO Web site. The USPTO does not investigate these complaints or participate in any legal proceedings against invention promoters or promotion firms.
