

Lessons Learned from other TRTs: TRP Measures

Kristy Long
National Take Reduction Program Coordinator
NMFS Office of Protected Resources
Kristy.Long@noaa.gov

Regulatory TRP Measures

- ❑ Modifications to gear and/or fishing practices
- ❑ Fishery-specific limits on M&SI (i.e., caps)
- ❑ Time and/or area closures
- ❑ Training and/or certification workshops
- ❑ Marine mammal handling/release protocols

Non-Regulatory TRP Elements

- Marine Mammal Research
 - Refine stock structure (e.g., genetic analyses)
 - Improve abundance and/or bycatch estimates
- Fishery Research
 - Modifications to gear and practices
 - Analytical research (mining and/or modeling exercises)
- Monitoring
 - Fishery observer programs
- Outreach and Education
- Enforcement
