Application accepted by Commissioner of Customs: June 9, 2010.  
**Docket Number:** 10–035.  
**Applicant:** University of Maine System, 16 Central St., Bangor, ME 04401.  
**Instrument:** Electron Microscope.  
**Manufacturer:** Tescan, Czech Republic.  
**Intended Use:** This instrument will be used for the study of primarily geological (wet and dry sediment, rocks, fossils) but also some archaeological and biological materials. The objective is to obtain a better understanding of the mechanical and chemical structure of the Earth’s crust, fluid flow in the crust, mechanisms for magma flow, and more.  
**Justification for Duty-Free Entry:** There are no instruments of the same general category being produced in the United States.  
Application accepted by Commissioner of Customs: June 9, 2010.  
**Docket Number:** 10–036.  
**Applicant:** Drive, Hogan 2–100, Evanston, IL 60201.  
**Instrument:** Electron Microscope.  
**Manufacturer:** JEOL, Ltd., Japan.  
**Intended Use:** This instrument will be used to study the structure of biological macromolecules, and to aid the development of novel methods that will facilitate the study of biological materials by electron microscopy. The objective is to visualize the 3-dimensional structure of biological macromolecular assemblies.  
**Justification for Duty-Free Entry:** There are no instruments of the same general category being produced in the United States.  
Application accepted by Commissioner of Customs: June 15, 2010.  
**Docket Number:** 10–040.  
**Applicant:** Illinois State University, School of Biological Sciences, Loading Dock, Science Lab Building, 125 South Fell Avenue, Normal, IL 61790–4120.  
**Instrument:** Electron Microscope.  
**Manufacturer:** FEI Company, Czech Republic.  
**Intended Use:** This instrument will be used to study the morphology and ultrastructure of biological cells and tissues, and potentially infectious agents, such as bacteria and viruses. Most of the experiments will be carried out on biological material that has been chemically preserved so that its structure can be determined by transmission electron microscopy at ultrahigh magnification to obtain the greatest detail and highest resolution achievable.  
**Justification for Duty-Free Entry:** There are no instruments of the same general category being produced in the United States.  
Application accepted by Commissioner of Customs: June 9, 2010.  
**Docket Number:** 10–037.  
**Applicant:** University of Kansas Medical Center, 3901 Rainbow Blvd., MSN 1039, Kansas City, KS 66160.  
**Instrument:** Electron Microscope.  
**Manufacturer:** JEOL, Ltd., Japan.  
**Intended Use:** This instrument will be used to study the morphology and ultrastructure of biological cells and tissues, and potentially infectious agents, such as bacteria and viruses. Most of the experiments will be carried out on biological material that has been chemically preserved so that its structure can be determined by transmission electron microscopy at ultrahigh magnification to obtain the greatest detail and highest resolution achievable.  
**Justification for Duty-Free Entry:** There are no instruments of the same general category being produced in the United States.  
Application accepted by Commissioner of Customs: June 16, 2010.  
**Docket Number:** 10–038.  
**Applicant:** Temple University, 1901 N. 13th Street, Department of Chemistry, Philadelphia, PA 19122.  
**Instrument:** Electron Microscope.  
**Manufacturer:** JEOL, Ltd., Japan.  
**Intended Use:** This instrument will be used in materials research and biological fields to examine the structure and properties of these materials under high resolution. Examples of research activities include the study of phase transformation of nanoparticles in soil and aquatic systems; nanostructures that make up polymer electrolyte membrane (PEM) fuel cells; functionalized nanoparticles for optical applications; and more.  
**Justification for Duty-Free Entry:** There are no instruments of the same general category being produced in the United States.  
Application accepted by Commissioner of Customs: June 15, 2010.  
**Docket Number:** 10–041.  
**Applicant:** University of Arkansas for Medical Sciences, 4301 W. Markham, Slot 505, Little Rock, AR 72205.  
**Instrument:** Electron Microscope.  
**Manufacturer:** FEI, the Netherlands.  
**Intended Use:** This instrument will be used for research concerning cellular organelles and protein complexes. The objective is to extend the level of resolution in research from the 200 nm level of light microscopy to the 1 nm or better level of electron microscopy. This will help researchers understand how cellular receptors function, how a specific cellular organelle, the Golgi apparatus, functions, and how protein complex involved in viral replication functions.  
**Justification for Duty-Free Entry:** There are no instruments of the same general category being produced in the United States.  
Application accepted by Commissioner of Customs: June 16, 2010.

**RIN 0648–XU50**

**Endangered and Threatened Species; Initiation of a 5–Year Review of the Eastern Distinct Population Segment of the Steller Sea Lion**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of initiation of 5–year review; request for information.

**SUMMARY:** NMFS announces a 5–year review of the eastern Distinct Population Segment (DPS) of the Steller Sea Lion (Eumetopias jubatus) under the Endangered Species Act of 1973, as amended (ESA). A 5–year review is a periodic process conducted to ensure that the listing classification of a species is accurate and it is based on the best scientific and commercial data available at the time of the review; therefore, we are requesting submission of any such information on the eastern DPS of the Steller Sea Lion that has become available since their last status review in 1995. Based on the results of this 5–year review, we will make the requisite finding under the ESA.

**DATES:** To allow us adequate time to conduct this review, we must receive your information no later than August 30, 2010. However, we will continue to accept new information about any listed species at any time.
Steller sea lion.

...year review for the eastern DPS of the Steller Sea Lion (Eumetopias jubatus).

Five-year reviews consider the best scientific and commercial data and all new information that has become available since the listing determination or most recent status review. Categories of requested information include the following: (A) species biology, including, but not limited to, population trends, distribution, abundance, demographics, and genetics; (B) habitat conditions, including, but not limited to, amount, distribution, and suitability; (C) conservation measures that have been implemented that benefit the species; (D) status and trends of threats; and (E) other new information, data, or corrections, including, but not limited to, taxonomic or nomenclatural changes, identification of erroneous information contained in the list, and improved analytical methods.

The eastern DPS of the Steller Sea Lion is listed as a Distinct Population Segment of a vertebrate taxon. We will also be considering application of the DPS policy for vertebrate taxa. DPS is defined in the February 7, 1996, Policy Regarding the Recognition of Distinct Vertebrate in Population Segments (61 FR 4722). For a population to be listed under the ESA as a DPS, three elements are considered: (1) the discreteness of the population segment in relation to the remainder of the species to which it belongs; (2) the significance of the population segment to the species to which it belongs; and (3) the DPS’s conservation status in relation to the ESA’s standards for listing (i.e., is the population segment endangered or threatened?). DPSs of vertebrate species, as well as subspecies of all listed species, may be proposed for separate reclassification or for removal from the list.

If you wish to provide information for this 5–year review, you may submit your information and materials to Kaja Brix (see ADDRESSES). Our practice is to make submissions of information, including names and home addresses of respondents, available for public review during regular business hours. Respondents may request that we withhold a respondent’s identity, as allowable by law. If you wish us to withhold your name or address, you must state this request clearly at the beginning of your submission. We will not, however, consider anonymous submissions. To the extent consistent with applicable law, we will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety. Information and materials received will be available for public inspection, by appointment, during normal business hours (see ADDRESSES). Authority: 16 U.S.C. 1531 et seq.

Angela Somma,
Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE
International Trade Administration

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (“the Department”) has completed its administrative review of the countervailing duty (“CVD”) order on certain pasta from Italy for the period January 1, 2008, through December 31, 2008. On April 13, 2010, we published the Preliminary Results of this review. See Certain Pasta From Italy: Preliminary Results of the 13th (2008) Countervailing Duty Administrative Review, 75 FR 18806 (April 13, 2010) (“Preliminary Results”). We did not receive any comments on the Preliminary Results and have made no revisions. We find that Pastificio Lucio Garofalo S.p.A. (“Garofalo”) received countervailable subsidies and that F.lli De Cecco di Filippo Fara San Martino S.p.A. (“De Cecco Pastificio”)/Molino e Pastificio De Cecco S.p.A. (“De Cecco Pescara”), members of the De Cecco group of companies, received de minimis countervailable subsidies. The final net subsidy rates for Garofalo and De Cecco Pastificio/De Cecco Pescara are listed below in the section entitled “Final Results of Review.”

DATES: Effective Date: June 29, 2010.

FOR FURTHER INFORMATION CONTACT: Anna Flaten or Brandon Farlander, AD/CVD Operations, Office 1, Import Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230;
