

Predraft of

Amendment 4 to the 2006 Consolidated Atlantic Highly Migratory Species Fishery Management Plan: Caribbean Fishery Management Measures

August 2009

Highly Migratory Species Management Division
Office of Sustainable Fisheries
National Marine Fisheries Service
1315 East-West Highway
Silver Spring, Maryland 20910

TABLE OF CONTENTS

1.0	Introduction.....	1
1.1	HMS Management History and Description of the Fishery	3
1.1.1	Atlantic Tunas.....	4
1.1.2	Atlantic Swordfish	6
1.1.3	Atlantic Sharks.....	8
1.1.4	Atlantic Billfish.....	9
1.2	Status of the Stocks.....	11
1.2.1	Atlantic Tunas.....	15
1.2.2	Atlantic Swordfish	24
1.2.3	Atlantic Sharks.....	25
1.2.4	Atlantic Billfish.....	32
1.3	Purpose and Need	39
2.0	Range of Potential Alternatives	41
2.1	Permitting.....	41
2.1.1	Vessel Permitting	41
2.1.2	Dealer Permitting	47
2.2	Reporting.....	50
2.2.1	Commercial Reporting.....	50
2.2.2	Recreational Reporting	54
2.3	Offshore Fishery Resources.....	56
2.3.1	Fish Aggregating Devices.....	56
2.4	Agency Outreach	63
2.4.1	Training Workshops and Education.....	63
A.0	Appendix A: Summary of Comments Received During Scoping	71

B.0	Appendix B: Caribbean HMS Identification Guides	81
C.0	Appendix C: HMS Outreach Brochure.....	87
D.0	Appendix D: Table of Highly Migratory Species Common Names, Scientific Names, and Abbreviations	91

LIST OF TABLES

Table 1.1	Distribution of HMS permits among Puerto Rico and the USVI.	6
Table 1.2	Stock assessment summary table for Atlantic tunas, swordfish, and billfish.	12
Table 1.3	Stock assessment summary table for Atlantic sharks.	13
Table 1.4	Summary table for the status of Atlantic bigeye tuna.....	18
Table 1.5	Summary table for the status of Atlantic yellowfin tuna.	21
Table 1.6	Summary table for the status of northern Atlantic albacore tuna.	22
Table 1.7	Summary table for the status of western Atlantic skipjack tuna.....	24
Table 1.8	Summary table for the status of North Atlantic swordfish.	25
Table 1.9	Common names of shark species included within the four species management units under the purview of NOAA Fisheries.....	27
Table 1.10	Summary of Atlantic blue and white marlin stock assessment data.....	34
Table 1.11	Summary of Atlantic sailfish stock assessment data.	37
Table 2.1	List of alternatives considered for vessel permitting.	43
Table 2.2	List of alternatives considered for dealer permitting.	48
Table 2.3	List of alternatives considered for commercial reporting.	52
Table 2.4	List of alternatives considered for recreational reporting.	55
Table 2.5	List of alternatives considered for fish aggregating devices.....	58
Table 2.6	FAD locations in the U.S. Caribbean region.	60
Table 2.7	List of alternatives considered for training workshops and education.	64

LIST OF FIGURES

Figure 1.1	Illustration of the status determination criteria and rebuilding terms.....	11
Figure 1.2	Projections of BFT spawning stock biomass (SSB) for the Base Case assessment under low recruitment (top panels) and high recruitment (bottom panels) and various levels of constant catch.....	17
Figure 1.3	Estimated spearfish “only” catches in the Atlantic based on the new procedure for splitting combined sailfish and spearfish catches from 1956-2000.....	39
Figure 2.1	Chart showing FAD locations in the U.S. Caribbean region.	61
Figure 2.2	Chart showing FAD locations off St. Thomas and St Croix, USVI.....	62
