

CHAPTER 3 TABLE OF CONTENTS

Chapter 3 Table of Contents.....	3-i
Chapter 3 List of Tables	3-v
Chapter 3 List of Figures	3-xii
3.0 Description of Affected Environment	3-1
3.1 Introduction to HMS Management and HMS Fisheries	3-1
3.1.1 History of Atlantic Tunas, Swordfish, and Shark Management.....	3-2
3.1.1.1 Pre-1999 Atlantic Tunas Management.....	3-2
3.1.1.2 Pre-1999 Atlantic Swordfish Fishery and Management	3-7
3.1.1.3 Pre-1999 Atlantic Shark Fisheries and Management	3-10
3.1.1.4 1999 Fishery Management Plan for Atlantic Tunas, Swordfish, & Sharks	3-14
3.1.1.5 Post 1999 FMP	3-15
3.1.1.6 Regulatory Amendments Relating to the Pelagic Longline Fishery	3-15
3.1.1.7 Amendment 1 to the Fishery Management Plan for Atlantic Tunas, Swordfish, and Sharks	3-18
3.1.1.8 Other Post-1999 FMP Regulations for Atlantic Tunas, Swordfish, and Sharks .	3-19
3.1.2 History of Atlantic Billfish Fishery Management.....	3-21
3.1.2.1 Preliminary Fishery Management Plan (PMP) for Atlantic Billfish and Sharks	3-21
3.1.2.2 The Fishery Management Plan for the Atlantic Billfishes	3-22
3.1.2.3 Interim Rules	3-23
3.1.2.4 Amendment One to the Atlantic Billfish Fishery Management Plan.....	3-23
3.1.2.5 ICCAT 2000	3-25
3.1.2.6 White Marlin Endangered Species Act (ESA) Listing Review.....	3-25
3.1.2.7 ICCAT 2002	3-25
3.1.2.8 Recreational Permitting and Reporting Rules	3-26
3.1.2.9 Proposed Rule to Codify the 250 Marlin Landing Limit	3-26
3.1.2.10 ICCAT 2004	3-27
3.1.3 Summary and Update of Management Measures Taken in 2005 and Early 2006	
3-27	
3.1.4 2005 Accomplishments of the International Commission for the Conservation of	
3.1.4.1 Atlantic Tunas (ICCAT).....	3-30
3.1.4.2 Atlantic Tunas	3-30
3.1.4.3 Atlantic Sharks	3-31
3.1.4.4 Trade and Trade Monitoring	3-31
3.1.4.5 Data Compliance	3-31
3.1.4.6 Circle Hooks	3-31
3.1.4.7 Existing State Regulations.....	3-32
3.2 Status of the Stocks.....	3-41
3.2.1 Atlantic Swordfish.....	3-44
3.2.1.1 Life History and Species Biology.....	3-44
3.2.1.2 Stock Status and Outlook	3-46

3.2.1.3	Effect of Regulations	3-49
3.2.1.4	Recent and Ongoing Research.....	3-51
3.2.2	Atlantic Bluefin Tuna	3-51
3.2.2.1	Life History and Species Biology.....	3-52
3.2.2.2	Stock Status and Outlook	3-52
3.2.2.3	Effects of Regulations	3-57
3.2.2.4	Recent and Ongoing Research.....	3-59
3.2.3	Atlantic BAYS Tuna	3-63
3.2.3.1	Atlantic Bigeye Tuna.....	3-63
3.2.3.2	Atlantic Yellowfin Tuna.....	3-68
3.2.3.3	Atlantic Albacore Tuna	3-74
3.2.3.4	Atlantic Skipjack Tuna	3-79
3.2.4	Atlantic Billfish	3-83
3.2.4.1	Blue Marlin.....	3-83
3.2.4.2	White Marlin	3-92
3.2.4.3	Sailfish	3-98
3.2.4.4	Longbill Spearfish	3-105
3.2.5	Atlantic Sharks	3-107
3.2.5.1	Life History/Species Biology	3-107
3.2.5.2	Stock Status and Outlook	3-109
3.2.5.3	Large Coastal Sharks.....	3-109
3.2.5.4	Small Coastal Sharks.....	3-112
3.2.5.5	Pelagic Sharks	3-117
3.2.5.6	Effects of Regulations	3-118
3.2.5.7	Recent and Ongoing Research.....	3-120
3.3	Habitat.....	3-128
3.3.1	Regulatory Requirements	3-128
3.3.1.1	Habitat Areas of Particular Concern.....	3-129
3.3.2	Habitat Types and Distributions	3-129
3.3.2.1	Atlantic Ocean	3-130
3.3.2.2	Gulf of Mexico	3-135
3.3.2.3	U.S. Caribbean.....	3-138
3.4	Fishery Data Update	3-140
3.4.1	Pelagic Longline Fishery	3-143
3.4.1.1	Domestic History and Current Management	3-143
3.4.1.2	Recent Catch and Landings	3-149
3.4.1.3	Safety Issues	3-162
3.4.1.4	International Issues and Catch.....	3-163
3.4.2	Purse Seine	3-172
3.4.2.1	Domestic History and Current Management	3-172
3.4.2.2	Recent Catch and Landings	3-173
3.4.2.3	Safety Issues	3-173
3.4.2.4	International Issues and Catch.....	3-173
3.4.3	Commercial Handgear.....	3-174
3.4.3.1	Domestic History and Current Management	3-174
3.4.3.2	Recent Catch and Landings	3-176

3.4.3.3	Safety Issues Associated with the Fishery.....	3-179
3.4.3.4	U.S. vs. International Issues and Catch	3-180
3.4.4	Recreational Handgear	3-180
3.4.4.1	Overview of History and Current Management	3-180
3.4.4.2	Most Recent Catch and Landings Data	3-181
3.4.4.3	Bycatch Issues and Data Associated with the Fishery	3-190
3.4.4.4	Safety Issues Associated with the Fishery.....	3-194
3.4.4.5	U.S. vs. International Catch.....	3-195
3.4.5	Bottom Longline.....	3-196
3.4.5.1	Domestic History and Current Management	3-196
3.4.5.2	Recent Catch and Landings Data	3-197
3.4.5.3	Bottom Longline Bycatch.....	3-198
3.4.6	Gillnet Fishery	3-207
3.4.6.1	Domestic History and Current Management	3-207
3.4.6.2	Recent Catch and Landings	3-207
3.4.7	Fishery Data: Landings by Species	3-213
3.5	Economic Status of HMS Fisheries	3-228
3.5.1	Commercial Fisheries	3-229
3.5.1.1	Ex-Vessel Prices	3-230
3.5.1.2	Revenues.....	3-237
3.5.1.3	Wholesale Market.....	3-239
3.5.2	Recreational Fisheries	3-240
3.6	Community and Social Update	3-244
3.6.1	Overview of Current Information and Rationale.....	3-244
3.6.2	Social Impacts of Selected 2005 Regulatory Actions	3-246
3.6.3	Summary of New Social and Economic Data Available.....	3-247
3.6.3.1	2005 Social Science Publications	3-247
3.6.3.2	Summary of Social Data and Information for FEIS	3-248
3.6.3.3	HMS Community Profile Needs	3-249
3.7	International Trade and Fish Processing.....	3-250
3.7.1	Overview of International Trade for Atlantic HMS	3-250
3.7.1.1	Trade Monitoring.....	3-250
3.7.1.2	Bluefin Tuna Statistical Document	3-250
3.7.1.3	Swordfish Certificate of Eligibility and Statistical Document	3-251
3.7.1.4	Bigeye Tuna Statistical Document	3-251
3.7.1.5	Yellowfin Tuna Form 370	3-251
3.7.1.6	Billfish Certificate of Eligibility.....	3-252
3.7.2	U.S. Exports of HMS.....	3-252
3.7.2.1	Atlantic and Pacific Bluefin Tuna Exports.....	3-252
3.7.2.2	Other Tuna Exports	3-253
3.7.2.3	Shark Exports	3-254
3.7.2.4	Re-exports of Atlantic HMS.....	3-255
3.7.2.5	Summary of Atlantic HMS Exports	3-255
3.7.3	U.S. Imports of Atlantic HMS.....	3-256
3.7.3.1	Bluefin Tuna Imports	3-256
3.7.3.2	Other Tuna Imports	3-257

3.7.3.3	Swordfish Imports	3-258
3.7.3.4	Shark Imports	3-260
3.7.3.5	Summary of U.S. Imports of Atlantic HMS	3-261
3.7.4	The Use of Trade Data for Conservation Purposes	3-261
3.7.5	Overview of the Processing Industry for Atlantic HMS	3-263
3.7.5.1	Processing and Wholesale Sectors	3-264
3.8	Bycatch, Incidental Catch, and Protected Species	3-264
3.8.1	Bycatch Reduction and the Magnuson-Stevens Act	3-265
3.8.2	Standardized Reporting of Bycatch	3-266
3.8.2.1	U.S. Atlantic Pelagic Longline Fishery	3-270
3.8.2.2	Purse Seine Fishery	3-271
3.8.2.3	Shark Bottom Longline Fishery	3-271
3.8.2.4	Shark Gillnet Fishery	3-272
3.8.2.5	Commercial Handgear Fishery	3-272
3.8.2.6	Recreational Handgear Fishery	3-273
3.8.3	Bycatch Reduction in HMS Fisheries	3-273
3.9	HMS Permits and Tournaments	3-274
3.9.1	Upgrading and Safety Issues	3-276
3.9.2	Atlantic Tunas Permits	3-276
3.9.3	HMS CHB Permits	3-277
3.9.6	HMS Angling Permit	3-278
3.9.4	Dealer Permits	3-278
3.9.5	Exempted Fishing Permits (EFPs), Display Permits, Chartering Permits, and Scientific Research Permits (SRPs)	3-282
3.9.6	Atlantic HMS Tournaments	3-283
3.9.7	Evaluation and Monitoring of Bycatch	3-291
3.9.8	Bycatch Mortality	3-291
3.9.8.1	Introduction	3-291
3.9.8.2	Mortality by Fishery	3-292
3.9.8.3	Code of Angling Ethics	3-294
3.9.9	Interactions of HMS Fishing Gears with Protected Species	3-294
3.9.9.1	Interactions and the Marine Mammal Protection Act	3-295
3.9.9.2	Interactions and the ESA	3-297
3.9.9.3	Interactions with Seabirds	3-300
3.9.10	Measures to Address Protected Species Concerns	3-301
3.9.11	Bycatch of HMS in Other Fisheries	3-301
3.9.11.1	Squid Mid-Water Trawl	3-302
3.9.11.2	Menhaden Purse Seine Fishery	3-302
3.9.11.3	Shrimp Trawl Fishery	3-303
3.9.11.4	Southeast Gillnet Fishery	3-304
3.9.12	Effectiveness of Existing Time/Area Closures in Reducing Bycatch	3-304
3.9.12.1	Prohibition of Live Bait in the Gulf of Mexico	3-305
3.9.12.2	Conclusions	3-306
3.9.13	Evaluation of Other Bycatch Reduction Measures	3-306
Chapter 3 References.....	3-309	

CHAPTER 3 LIST OF TABLES

Table 3.1	Summary of 2005 <u>Federal Register</u> Notices Related to HMS.....	3-28
Table 3.2	State Rules and Regulations Pertaining to Atlantic HMS, as of May 30, 2006.	3-33
Table 3.3	Stock Assessment Summary Table. Source: SCRS, 2004 and 2005, Cortes, 2002, and Cortes <i>et al.</i> 2002.....	3-43
Table 3.4	Atlantic Swordfish Stock Summary (weights given in mt ww). Source: SCRS, 2005.....	3-49
Table 3.5	Summary Table for the Status of West Atlantic Bluefin Tuna. Source: ICCAT, 2005.....	3-54
Table 3.6	Summary Table for the Status of East Atlantic Bluefin Tuna. Source: ICCAT, 2005.....	3-54
Table 3.7	Probability of western Atlantic bluefin tuna achieving rebuilding target by 2018. Source: ICCAT, 2004.....	3-57
Table 3.8	Summary Table for the Status of Atlantic Bigeye Tuna. Source: ICCAT, 2005...3-66	
Table 3.9	Summary Table for the Status of Atlantic Yellowfin Tuna. Source: ICCAT, 2005.....	3-70
Table 3.10	Summary Table for the Status of North Atlantic Albacore Tuna. Source: ICCAT, 2005.....	3-76
Table 3.11	Summary Table for the Status of South Atlantic Albacore Tuna. Source: ICCAT, 2005.....	3-77
Table 3.12	Summary Table for the Status of West Atlantic Skipjack Tuna. Source: ICCAT, 2005.....	3-82
Table 3.13	Summary of Atlantic Blue Marlin Stock Assessment data. Weights are in metric tons, whole weight. Source: SCRS, 2005.....	3-86
Table 3.14	Summary of Atlantic White Marlin Stock Assessment data. Weights are in metric tons, whole weight. Source: SCRS, 2005.....	3-95
Table 3.15	Summary of Atlantic Sailfish Stock Assessment data. Weights are in metric tons, whole weight. Source: SCRS, 2004.....	3-101
Table 3.16	Common names of shark species included within the four species management units under the purview of the HMS management division.....	3-109
Table 3.17	Summary Table of Biomass and Fishing Mortality for Large Coastal Sharks (LCS). Source: Cortes <i>et al.</i> , 2002.....	3-115
Table 3.18	Summary Table of Biomass and Fishing Mortality for Small Coastal Sharks (SCS) Source: Cortes, 2002.....	3-115
Table 3.19	Summary table of the status of the biomass of finetooth sharks. Sources: 2002 SCS stock assessment; E. Cortes, personal communication. LRSG=lagged recruitment, survival, and growth model; SPM=surplus production model....	3-116
Table 3.20	Summary table of the status of the biomass of finetooth sharks. Sources: 2002 SCS stock assessment; E. Cortes, personal communication. LRSG=lagged recruitment, survival, and growth; SPM=surplus production model.....	3-116

Table 3.21	Calendar Year 2004 U.S. vs International Catch of HMS (mt ww) other than sharks. Source: SCRS, 2005	3-142
Table 3.22	Average Number of Hooks per Pelagic Longline Set, 1999-2004. Source: Data reported in pelagic longline logbook.	3-144
Table 3.23	Observer Coverage of the Pelagic Longline Fishery. Source: Yeung, 2001; Garrison, 2003; Garrison and Richards, 2004; Garrison, 2005; Walsh and Garrison, 2006.....	3-149
Table 3.24	Reported Catch of Species Caught by U.S. Atlantic Pelagic Longlines, in Number of Fish, for 1999-2004. Source: Pelagic Longline Logbook Data.....	3-150
Table 3.25	Reported Landings in the U.S. Atlantic Pelagic Longline Fishery (in mt ww) for 1999-2004. Source: NMFS, 2004a; NMFS, 2005.	3-151
Table 3.26	Summary of Marine Mammal Interactions in the Pelagic Longline Fishery, 1992-1998. Source: Yeung, 1999a; Yeung, 1999b.	3-152
Table 3.27	Summary of Marine Mammal Interactions in the Pelagic Longline Fishery, 1999-2005. Sources: Yeung, 2001; Garrison, 2003; Garrison and Richards, 2004; Garrison, 2005; Walsh and Garrison, 2006.	3-153
Table 3.28	Estimated number of leatherback and loggerhead sea turtle interactions in the U.S. Atlantic pelagic longline fishery, 2001-2005 by statistical area. Sources: Walsh and Garrison, 2006; Garrison, 2005; Garrison and Richards, 2004; Garrison 2003.	3-155
Table 3.29	Seabird Bycatch in the U.S. Atlantic Pelagic Longline Fishery, 1992-2005. Source: NMFS, 2004a; NMFS PLL fishery observer program (POP) data.....	3-158
Table 3.30	Status of Seabird Bycatch in the U.S. Atlantic Pelagic Longline Fishery, 1992-2005. Source: NMFS PLL fishery observer program (POP) data.	3-159
Table 3.31	Preliminary Expanded Estimates of Seabird Bycatch (D = discarded dead and A = discarded alive) and bycatch rates (all seabirds per 1,000 hooks) in the U.S. Atlantic pelagic longline fishery, 1997-2004. Source: NMFS, 2004a; NMFS PLL fishery observer program (POP) data.	3-160
Table 3.32	ICCAT Bycatch Table (LL, longline; GILL, gillnets; PS, purse-seine; BB, baitboat; HARP, harpoon; Trap, traps). Source: SCRS, 2004.	3-165
Table 3.33	Estimated International Longline Landings of HMS, Other than Sharks, for All Countries in the Atlantic: 1999-2004 (mt ww) ¹ . Source: SCRS, 2005.....	3-166
Table 3.34	Nominal Catches of Blue Shark Reported to ICCAT (landings and discards in t) by Major Gear and Flag between 1990 and 2002. Source: SCRS, 2004; SCRS, 2005.....	3-168
Table 3.35	Nominal Catches of Shortfin Mako Shark Reported to ICCAT (landings and discards in t) by Major Gear and Flag between 1990 and 2002. Source: SCRS, 2004; SCRS, 2005.....	3-169
Table 3.36	Domestic Atlantic Tuna Landings for the Purse Seine Fishery: 1999-2004 (mt ww). Northwest Atlantic Fishing Area. Source: U.S. National Report to ICCAT: 2005.....	3-173
Table 3.37	Estimated International Purse Seine Atlantic Tuna Landings in the Atlantic and Mediterranean: 1999-2004 (mt ww). Source: SCRS, 2005	3-174

Table 3.38	Domestic Landings for the Commercial Handgear Fishery, by Species and Gear, for 1999-2004 (mt ww). Source: U.S. National Report to ICCAT: 2005.....	3-177
Table 3.39	Domestic Landings for the Commercial Handgear Fishery by Species and Region for 1999-2004 (mt ww). Source: U.S. National Report to ICCAT: 2005.....	3-178
Table 3.40	Estimated number of vessel trips targeting large pelagic species, 2001-2004. Source: Large Pelagics Survey database.....	3-178
Table 3.41	Updated Domestic Landings for the Atlantic Tunas, Swordfish and Billfish Recreational Rod and Reel Fishery, 1997-2004 (mt ww)*. Sources: NMFS, 2004; NMFS, 2005. (Recreational shark landings are provided in Table 3.44 through Table 3.47)	3-183
Table 3.42	Preliminary RBS Recreational Billfish Landings in numbers of fish (calendar year). Source: NMFS Recreational Billfish Survey (RBS).	3-185
Table 3.43	Number of billfish reported to NMFS via call-in system by fishing year, 2002-2005. Source: G. Fairclough, pers. comm.	3-185
Table 3.44	Estimates of Total Recreational Harvest of Atlantic Sharks: 1998-2004 (numbers of fish in thousands). Source: 1998-2000 (Cortés, pers. comm.); 2001-2004 (Cortés, 2005a; 2005b). Estimates for 2001-2004 do not include prohibited species.....	3-188
Table 3.45	Recreational Harvest of Atlantic Large Coastal Sharks (LCS) by Species, in number of fish: 1998-2004. Sources: 1998-2000 (Cortés, pers. comm.); 2001-2004 (Cortés, 2005a; 2005b). Total estimates for 2001-2004 do not include prohibited species.....	3-188
Table 3.46	Recreational Harvest of Atlantic Pelagic Sharks by Species, in number of fish: 1998-2004. Sources: 1998-2000 (Cortés, pers. comm.); 2001-2004 (Cortés, 2005a; 2005b). Total estimates for 2001-2004 do not include prohibited species.....	3-189
Table 3.47	Recreational Harvest of Atlantic SCS by Species, in number of fish: 1998-2004. Source: 1998-2000 (Cortés, pers. comm.); 2001-2004 (Cortés, 2005a; 2005b). Total estimates for 2001-2004 do not include prohibited species.	3-189

Table 3.110	Estimates (in thousands of individuals and pounds dressed weight) of the bycatch of small coastal sharks (as a complex and by species) in the shrimp trawl fishery operating in the Gulf of Mexico. Source: S. Nichols, NMFS Pascagoula Lab., pers. comm. as cited in Cortés, 2002.....	3-303
Table 3.111	Comparison of the number of hooks reported set in the Gulf of Mexico with dead or live bait, or a combination of both baits, 1999-2004 (numbers in parentheses are percent of the total number of hooks set in the Gulf of Mexico). Source: PLL Logbook data	3-305

CHAPTER 3 LIST OF FIGURES

Figure 3.1	Illustration of the status determination criteria and rebuilding terms	3-41
Figure 3.2	Reported catches (mt whole weight) of Atlantic Swordfish, including discards for 1950-2004. Source: SCRS, 2005	3-48
Figure 3.3	Estimated fishing mortality rate relative to FMSY (F/FMSY) for the period 1959-2001 (median with 80 percent confidence bounds based on bootstrapping are shown). Source: SCRS 2004.....	3-48
Figure 3.4	Annual yield (mt) (whole weight) for North Atlantic swordfish relative to the estimated MSY level. Source: SCRS 2004.....	3-49
Figure 3.5	Western Atlantic bluefin tuna spawning biomass (t), recruitment (numbers) and fishing mortality rates for fish of age 8+, estimated by the Base Case VPA run. Source: ICCAT, 2004.....	3-55
Figure 3.6	Abundance indices in numbers of BET. All ages are aggregated. Source: ICCAT, 2004.....	3-65
Figure 3.7	Trajectory of the BET biomass modeled in production model analysis (middle line) bounded by upper and lower lines denoting 80 percent confidence intervals. Source: ICCAT, 2004.....	3-66
Figure 3.8	Comparison of relative biomass trends calculated using VPA and non-equilibrium production models. Source: ICCAT, 2004.	3-70
Figure 3.9	Comparison of relative fishing mortality trends calculated using VPA and non-equilibrium production models. Source: ICCAT, 2004.....	3-71
Figure 3.10	North Atlantic albacore spawning stock biomass and recruits with 80 percent confidence limits. Source: ICCAT, 2004.....	3-76
Figure 3.11	Estimated catches (including landings and dead discards in mt) of blue marlin in the Atlantic by region. The 2003 catch reported to ICCAT is preliminary and is not included in this figure. Weights are in metric tones, whole weight. Source: SCRS, 2005.....	3-87
Figure 3.12	Composite CPUE series (symbols) used in the blue marlin assessment compared to model estimated median relative biomass (solid lines) from bootstrap results (80 percent confidence bounds shown by dotted lines). Source: SCRS, 2005..	3-88
Figure 3.13	Estimated median relative fishing mortality trajectory for Atlantic blue marlin (center, dark line) with approximate 80 percent confidence range (light lines) obtained from bootstrapping. Source: SCRS, 2005.....	3-88
Figure 3.14	Geographical distribution of reported catches of blue marlin for the period 1956-2003. Source: SCRS, 2005.	3-89
Figure 3.15	Estimated catches (including landings and dead discards in t) of blue marlin in the Atlantic by region (1950-2004). Source: SCRS, 2005.	3-89
Figure 3.16	Estimated biomass ratio B_{2000}/B_{MSY} (solid line, no symbols) and fishing mortality ratio $F_{2000}/FMSY$ (solid line with symbols) from the production model fitted to the continuity case for white marlin. Ratios of last three years have been adjusted for retrospective pattern. Broken lines show unadjusted ratios. Note that scales are different for each ratio. Source: SCRS, 2004.....	3-95

Figure 3.17	Geographical distribution of white marlin catches for the period 1956-2003. Source: SCRS, 2005.	3-96
Figure 3.18	Reported catch of white marlin (Task I) in the North and South Atlantic for longline (LL) gear and other (OTH) gears. Source: SCRS, 2005.....	3-96
Figure 3.19	Evolution of estimated sailfish/spearfish catches in the Atlantic (landings and dead discards, reported and carried over) in the ICCAT Task I database during 1956-2002 for the east and west stocks. The 2003 catch reported to ICCAT is preliminary and is not included in this figure. Weights are in metric tons, whole weight. Source: SCRS, 2005.....	3-101
Figure 3.20	Available standardized CPUE for western Atlantic sailfish/spearfish for the period 1967-2000, including Japanese, U.S., and Venezuelan time series data. Source: SCRS, 2005.....	3-102
Figure 3.21	Estimated sailfish “only” catches based on the new procedure for splitting combined sailfish and longbill spearfish catches from 1956-2000. Weights are in metric tons, whole weight. Source: SCRS, 2005.....	3-102
Figure 3.22	Geographical distribution of sailfish/spearfish catches between 1950-2003. Source: SCRS, 2005.....	3-103
Figure 3.23	Evolution of estimated sailfish/spearfish catches in the Atlantic (landings and dead discards, reported and carried over) in the ICCAT Task I database during 1956-2004 for the east and west stocks. Source: SCRS, 2005.	3-104
Figure 3.24	Estimated spearfish “only” catches in the Atlantic based on the new procedure for splitting combined sailfish and spearfish catches from 1956-2000. Weights are in metric tons, whole weight. Source: SCRS, 2005.....	3-106
