

Atlantic Swordfish Landings Update: Commercial and Recreational January 1 – October 31, 2013

The table below provides preliminary landings estimates and remaining quotas as of October 31, 2013, for the Atlantic swordfish fisheries for the 2013 fishing year. We estimate landings using commercial dealer reports and reports by anglers in the HMS Non-Tournament Recreational Swordfish and Billfish Landings Database and the Recreational Billfish Survey. Please note that these estimates are subject to late reporting and do not include discards. The table below provides both the baseline and adjusted 2013 quotas.
