*This pamphlet was prepared in May 2000 to
provide interested fishermen a summary
only of recreational angler regulations
resulting from the HMS Fishery
Management Plan. Regulations may be
found at www.nmfs.gov/sfa/hmspg.html.
Since fishery rules are subject to change,
fishermen must familiarize themselves with
the latest regulations and are responsible
for complying with current official
regulations.*

Atlantic Shark Recreational Fishery Regulations

MAY 2000

National Marine Fisheries Service
Office of Sustainable Fisheries
Highly Migratory Species Management
Division

Bag Limit and Minimum Size

ONE shark (any species that may be kept) per vessel per trip with a minimum size of 54" or 4.5 feet fork length; plus

ONE Atlantic sharpnose shark per person per trip (no minimum size).

Fork length

Authorized Gears

Rod and reel, handline, bandit gear.

No Sale Provision

Recreational fishermen (those fishermen who do not have a commercial shark permit) are not permitted to sell, barter, or trade Atlantic shark or shark pieces.

Landing Restrictions

Harvested sharks must have fins, head, and tail attached through landing. Sharks may be bled and gutted if the tail is still attached. This regulation will aid species-specific identification of landed sharks dockside.

Release Information

If you catch a prohibited species or an undersized shark, you must release that fish to the sea immediately with a minimum of injury and without removing the fish from the water. If you are not sure of the species and whether you may keep it, release it.

Species That May Be Kept

Large Coastal Sharks

Sandbar	Lemon
Blacktip	Bull
Spinner	Great hammerhead
Tiger	Smooth hammerhead
Silky	Scalloped hammerhead
Nurse	

Small Coastal Sharks

Atlantic sharpnose	Blacknose
Finetooth	Bonnethead

Pelagic Sharks

Shortfin mako	Oceanic whitetip
Common thresher	Blue
Porbeagle	

Species That MUST Be Released*

White	Narrowtooth
Dusky	Caribbean sharpnose
Sand tiger	Smalltail
Bigeye sand tiger	Atlantic angel
Whale	Longfin mako
Basking	Bigeye thresher
Bignose	Sevengill
Galapagos	Sixgill
Night	Bigeye sixgill
Caribbean reef	

*Sharks must be released immediately with a minimum of injury without removing it from the water.

Tagging Information

To obtain shark tags and information on the Cooperative Shark Tagging Program, write:

Apex Predators Program

NOAA / National Marine Fisheries Service

28 Tarzwell Drive

Narragansett, RI 02882-1199

or visit www.nefscsharks.nmfs.gov

Tournament Registration

The tournament operator responsible for maintaining records of participants and results used for awarding tournament points or prizes for Atlantic highly migratory species, which includes sharks, must register the tournament with NMFS at least four weeks prior to commencement of the tournament. Call (228) 769-8964 or visit the website www.nmfs.gov/sfa/hmspg.html to receive a registration form.

NMFS will select certain tournaments for reporting. If your tournament is selected, NMFS will send you a reporting form that must be returned to NMFS within 7 days after tournament fishing has been completed.

To Be Implemented At A Later Date:

Permits and Logbooks for

Charter/Headboats - Permits for charterboats and headboats targeting HMS species, including Atlantic sharks, will be required. You will be contacted in the near future regarding the time frame for the implementation of the new permit. NMFS will select a percentage of permitted charter/headboats to complete a logbook for each trip.

Voluntary Observer Program for

Charter/Headboats - The voluntary observer program will be used by NMFS to monitor catch and release rates and condition of released fish more effectively. The voluntary program will begin following implementation

of the charter/headboat permit.
